

I am an XM Satalite Listener and subscriber, I enjoy it and benefit from listening to XM Satelllite Radio and its traffic and weather channels...especially on the road and in remote locations. XM Satelllite Radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Please help me urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that WE THE PEOPLE demand and deserve.
